

8th Grade Science

Human Body Systems & Health Book

Chapter One: Body Organization and Structure (pg 2-27)

For each word listed below, write the word on a piece of notebook paper, underline the word and then write the definition after the word. (Students are encouraged to take the definition from the actual text because that is the definition that will be used on quizzes and tests).

Vocabulary:

Homeostasis	tissue	organ
organ system	skeletal system	red marrow
yellow marrow	cartilage	joint
ligaments	Osteoporosis	arthritis
