

# 8<sup>th</sup> Grade Science

## Introduction to Matter Book

### Chapter One: The Properties of Matter (pg 2-29)

For each word listed below, write the word on a piece of notebook paper, underline the word and then write the definition after the word. (Students are encouraged to take the definition from the actual text because that is the definition that will be used on quizzes and tests).

#### Vocabulary:

Matter	volume	meniscus	mass
Weight	inertia	physical property	density
Physical change	chemical properties	chemical change
