

8th Grade Science

Introduction to Matter Book

Chapter Four: Introduction to Atoms (pg 80-103)

For each word listed below, write the word on a piece of notebook paper, underline the word and then write the definition after the word. (Students are encouraged to take the definition from the actual text because that is the definition that will be used on quizzes and tests).

Vocabulary:

Atom	electrons	nucleus	electron cloud
Protons	atomic mass unit	neutrons	ion
atomic number	isotopes	mass number	atomic mass
