

# 8<sup>th</sup> Grade Science

## Human Body Systems & Health Book

### Chapter Three: The Digestive & Urinary Systems (57-69)

For each word listed below, write the word on a piece of notebook paper, underline the word and then write the definition after the word. (Students are encouraged to take the definition from the actual text because that is the definition that will be used on quizzes and tests).

Digestive system	digestive tract	digestion	mechanical digestion
Chemical digestion	nutrients	enzymes	amino acids
Enamel	molars	premolars	incisors
Canines	saliva	esophagus	peristalsis
Stomach	chyme	pancreas	small intestine
Villi	liver	gall bladder	large intestine
Feces	cellulose	fiber	rectum
Anus	excretion	urinary system	kidneys
Nephrons	urea	hormones	diuretic
