

INB Water Cycle

1. Follow along with the teacher to create your foldable.
2. On the front cover (top of the flap) you will write one step of the water cycle. Make sure each flap has ONLY one step of the water cycle.
3. Under each step that you wrote on the flap, draw and color a picture showing what is going on in that step of the water cycle.
4. Use arrows to show the flow of water throughout the cycle on the flaps.
5. Under each flap (inside of the flap) write the definition & explanation of that step of the water cycle.
6. In the middle of the foldable (inside, the square part) draw & color a diagram showing the entire water cycle.
7. After you have finished the drawing, coloring, writing on your foldable, attach it to your INB.
