

# Egg Drop June 13th

## Activity Objective:

The idea behind the Egg-Drop Activity is to create a package that will protect a raw egg when it is dropped from a height of approximately 25 feet.

## Assignment: (if you choose)

Create a package for your egg that will protect it from the fall it will endure. Be creative when designing your package. Don't forget to place the egg inside the package and bring it ready for the drop.

## Due Date: Tuesday June 13th!

**Bring your raw egg in its package ready for the drop and your name clearly on the outside.**

## Rules:

- The box/container may not be larger than a shoe box.
- The egg must be raw.
- No glass items please.
- You will not get anything back so please use items you do not care about.
